Year 5 and 6 Earth and Space Event 16.10.26

Dear Parent/Carer,

We are thrilled to inform you that there will be an Earth and Space event on **Tuesday 3rd November 2026** for **Year 5 and 6 families**. The event will commence at **16:30** and will end no later than **17:45**. There event is free to attend.

This year, the *Forward as One Trust* have continued their partnership with the *Ogden Trust*, a charity that aims to promote high-quality teaching of physics to inspire the future generation to become scientists. By working with the Ogden Trust, we are able to offer further science enrichment opportunities throughout the year, as we have access to a range of fantastic resources.

The event is open to all Year 5 and Year 6 families. **Children must be accompanied by an adult in order to attend**. Throughout the evening, you and your child will be able to carry out experiments related to space and create your own scientific models to take home. Year 5 and 6 have been invited to attend as they will be learning about Earth and space this year, or they learnt about it last year in science, so it provides the perfect opportunity to strengthen their understanding of these concepts.

We understand that some of you may have younger children, who you may not be able to get childcare for in order to attend the event with your Year 5 or 6 child. If this is the case, younger siblings may come along the event, as we would love as many children as possible from Year 5 and 6 to experience this enrichment opportunity. However, the content of the evening will still be pitched to ages 9-11.

If this event sounds like something your family would be interested in attending, please confirm your attendance on Arbor (the event will be under trips). If you have any queries, please speak to me or send an email to the office. Thank you for your continued support. We look forward to seeing you.

Miss R Richardson
Science Lead
